DETAILED ACTION

Claim Objections

Claims 1-4 are objected to because of the following informalities:

The examiner of record requests applicant to review all pending claims and correct the use of periods in said claims.

For example, on page 20, line 5, the use of a period after the word "device" is considered inappropriate. A claim can only have a period after its last word. There are similar problems in other sentences of claim 1 and in claim 2. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Imran or Zadno-Azizi, et al. The cited patents disclose the steps of inserting and positioning an occlusion device in a vessel; treating a lesion in the vessel at a site near the occlusion device, inserting a catheter having an extraction section to a location near the occlusion device, supplying a fluid to the extraction section to engage and entrain debris at the site of the distal occlusion device generating an entrained flow, and providing an extraction lumen proximal of the extraction section to receive the entrained flow.
